[zenith-in](https://www.linkedin.com/company/zenith-in)

Seeking an entry-level position to begin my career in high-level professional environment. A flexible, enthusiastic student pursuing a B.Tech degree in Computer Science and Engineering looking for opportunities. Holds the ability to work under pressure and handle situations professionally. Impelled to learn from senior engineers while sharing innovative ideas in a inspirational environment that values personal growth.

WORK EXPERIENCE

Freelance Computer Technician

Computer Technician

Acquired experience in troubleshooting and repairing computer systems for business and individual customers. Also provided services in custom PC building.
